CNC Manufacturing serving the Aerospace Industry since 1997

BALDWIN PARK, California. – January, 6 2014. MY Machine Inc., Inc. announced today the expansion of their in-house CNC Machining Facility located in Baldwin Park, Ca. MY Machine Inc. has acquired a coordinate measurement machine to expand on inspection capabilities. This new CMM has a working size of X=48.00", Y= 80.00" and Z= 36.00. This decision was fueled by MY Machine's desire to continuously improve their in-house quality and to ensure a conforming product to their customer. The CMM utilizes V. Demis software and has been placed in a controlled environment to ensure all parts are measured within a 68 to 72 degree temperature range. All MYM quality employees have now completed a required training course in order to correctly utilize the software and machine. MY Machine's 3 and 5 axis contract manufacturing facility has been in operation since 1997 and every product that leaves its doors is manufactured in compliance with AS9100 Rev. C standards, guaranteeing all statutory and regulatory requirements are met. MY Machine, Inc. has succeeded in a very competitive industry largely in part to an unquestionable commitment to quality, reliable delivery and customer satisfaction.
